

PROFESSIONAL DEVELOPMENT

LEARNING PLANS FOR MANUFACTURING JOB ROLES

Training Packages from Tooling U-SME offer quick-start, progressive road maps in various functional areas that allow manufacturers to build career paths for employees. They are intended to enhance your existing OJT and help you create a job progression plan. Unlike many other training programs, these packages require minimal preparation. They are efficient, effective training, developed with input from manufacturing experts.

FLEXIBLE AND CONVENIENT

Online classes are self-paced, typically taking 60 minutes to complete. They are easily and conveniently accessible on desktops and laptops, and on tablets and phones with the Tooling U-SME app.

CAREER PATHWAYS FOR MECHATRONICS JOB ROLES

Combine job roles for learning pathways, or offer single job roles for targeted learning. Large comprehensive programs are also available.

MECHATRONICS FUNDAMENTALS ELECTRICAL PRODUCTION

ELECTRICAL TECHNICIAN

MAINTENANCE TECHNICIAN

FLUID SYSTEMS TECHNICIAN

AUTOMATION TECHNICIAN

Online Training offers:

- Content developed by industry experts
- Accessible anytime, anywhere
- Self-paced
- Predefined curriculum for each job role
- Engaging and interactive content
- Pre- and post-training knowledge assessments
- Access to Tooling U-SME's Learning Management System (LMS)
- Guidance from our Client Success team, including advice, insights, and ideas built on best practices and years of experience

MECHATRONICS

MECHATRONICS FUNDAMENTALS

Math Fundamentals
Math: Fractions and Decimals
Units of Measurement
Basics of Tolerance
Blueprint Reading
Basic Measurement
Calibration Fundamentals
Hole Standards and Inspection

Thread Standards and Inspection Intro to OSHA Personal Protective Equipment Noise Reduction and Hearing Conservation Prespiratory Safety Lockout/Tagout Procedures SDS and Hazard Communication Bloodborne Pathogens Walking and Working Surfaces Fire Safety and Prevention Flammable/Combustible Liquids Hand and Power Tool Safety Safety for Lifting Devices Powered Industrial Truck Safety Confined Spaces Introduction to Physical Properties Introduction to Mechanical Properties Introduction to Metals Ferrous Metals Lean Maufacturing Overview ISO 9001:2015 Review Approaches to Maintenance Total Productive Maintenance SS Overview Flectrical Units Safety for Electrical Work Introduction to Mechanical Systems Safety for Mechanical Work Forces of Machines

ELECTRICAL PRODUCTION

Algebra Fundamentals Geometry: Lines and Angles Geometry: Triangles Geometry: Circles and Polygons Trigonometry: The Pythagorean Trigonometry: Sine, Cosine, Tangent Essentials of Heat Treatment of Steel Troubleshooting Introduction to CNC Machines Control Panel Functions for the

CNC Mill Shift Registers Introduction to Circuits Introduction to Magnetism DC Circuit Components

Control Panel Functions for the

CNC Lathe

NEC Overview AC Fundamentals Electrical Instruments Electrical Print Reading Conductor Selection Series Circuit Calculations Parallel Circuit Calculations

Limit Switches and Proximity Sensors Lubricant Fundamentals Overview of Soldering Relays, Contractors, and Motor Starters Control Devices Distribution Systems Introduction to Electric Motors Logic and Line Diagrams Essentials of Leadership Essentials of Communication
